

Are you
up for it ↑

UP **NMOC**

The law's changed.
Cannabis has moved on down,
from a Class B drug,
to a Class C drug.

But it's still illegal.

Caught with a spliff when you're 17 or under?
You'll be arrested & taken to the police
station for a formal warning.

If you're caught again you could end
up in court.

Cannabis is still illegal.

Pleasant dreams of faraway places?
Planning a holiday Down Under?
A trip to New York?

Some countries might not let you in if
you've got a drug conviction.

Cannabis is still illegal.

Thinking about that brilliant job
you've always wanted?

Some employers won't take
people with drug convictions.

Cannabis is still illegal.

You're either up...
Or you're down.

**Smoking cannabis could
screw you up.**

If you'd like friendly, helpful advice about cannabis or other
drugs and how they affect you, or if you or someone you
care about has a drug problem, visit talktofrank.com or
